

RECOVERY

- Reduces the appearance of all signs of aging
- Improves tone and texture
- Reduces the appearance of pore size
- Helps heal difficult conditions such as acne and rosacea
- Improves the results of surgical and laser procedures
- Assists in “scarless” healing
- Helps to reduce pain, inflammation, and downtime

Who We Are

NeoGenesis is in the business of providing skin and hair products that enhance people’s lives. Our products are safe and effective on all skin types and all skin conditions.

NeoGenesis skin and hair care products return to the skin and hair those nutrients once created in abundance during our youth, but that have diminished with aging. We deliver those nutrients in a way that works with and mimics your body’s natural processes.

Learn more about our innovative line of skincare, hair and lash/brow products through your skin professional or visit the NeoGenesis website: neogenesis.com.

POWER BOOST YOUR BEAUTY

Recovery Serum

The next generation of skin care science.

Enhance Your Beauty, Naturally

Recovery acts as a “beauty boost”.

Your skin will feel softer. You will see improvement in tone and texture. People will comment on your radiant glow. All of these benefits come with a truly organic product that is good for your skin.

No chemicals. No side effects. Recovery is powerful yet safe for daily use and corrects even the most damaged skin.

Faster Healing & Less Inflammation Post Procedure

Recovery improves results, speeds the healing process, and reduces inflammation after any anti-aging procedure, including chemical peels, microdermabrasion, laser resurfacing, micro-needling, and any cosmetic surgery.

Recovery is abundant in molecules that contain growth factors, anti-oxidants, proteins, and peptides. Our break-through technology delivers these molecules in a patented formula that enables the molecules to reach the areas of your skin that need them the most. This allows the molecules to work with the body to enhance your natural healing processes.

For Optimal Results: Your skin care professional will guide you on how often to use Recovery, and how to combine it with the NeoGenesis Skin Serum and Moisturizer. *For External Use Only.*

REAL PATIENT RESULTS

MICRO-NEEDLING

FOLLOWING TREATMENT

20 MINUTES POST-TREATMENT

“On average, people require 1 — 3 days after Micro-needling for the heat and redness to subside. Recovery, as a part of Micro-needling treatment, reduces healing time down to less than 1 day and often within hours of the treatment.”

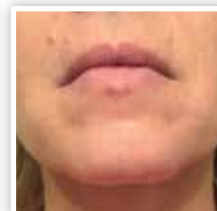

ANTI-AGING

Catherine Roberts, Iconic International Model:

“As a successful beauty model for nearly 40 years, I have used the top skin care lines from around the world, and nothing compares to the results I have seen with NeoGenesis products. I feel like NeoGenesis is turning back the hands of time...or at least slowing the pace... and I love it!”
