

soothe + repair

CHRONIC SKIN CONDITIONS

neo
GENESIS

SOOTHE AND REPAIR AT A CELLULAR LEVEL.

Delivering nutrient rich molecules to compromised skin, NeoGenesis stem cell released molecule technology (S²RM®)¹ naturally heals the skin by utilizing the molecules released from the optimal set of adult stem cell types.

By providing the best climate for healing and calming the skin, areas of dryness are improved and inflammation is reduced, allowing symptoms to subside.

NeoGenesis can aid in healing the skin and reducing or eliminating the inflammation and general discomfort of chronic conditions.

reduce redness + relieve irritation

Many with oily skin incorrectly believe that their skin is dirty and wash too often with harsh cleansers and exfoliants, damaging the skin. NeoGenesis Recovery, abundant in S²RM[®] technology, is perfect to naturally restore balance within the skin, and reduce inflammation and redness.

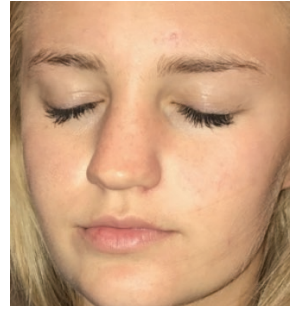

BLEMISHES

9 WEEKS

“We have dramatically changed the skin in a matter of 9 weeks. You will start to see how the blackheads, whiteheads, and underlying congestion of the skin have dramatically improved, if not disappeared. This is 9 weeks of using NeoGenesis on the skin topically. We have not treated the skin with any treatments. This is something we have never experienced in all of our skin education before.” - *Courtesy of Donna Glazer, Face It Skin Clinic*

BLEMISHES

DAY 1

DAY 21

DAY 57

“My skin felt red and irritated a lot, with pimples most of the month. The MB-1 is very easy to use and feels good on my skin. It soothed my redness right away and I saw my breakouts begin to heal the first week. I got fewer new breakouts too and when I did, they were much smaller, without the redness and irritation I normally get.” - KS

Calm and soothe sensitive skin and maintain a healthy-looking complexion with NeoGenesis products that naturally deliver the nutrients needed for skin to become balanced and respond normally.

ROSACEA

BEFORE

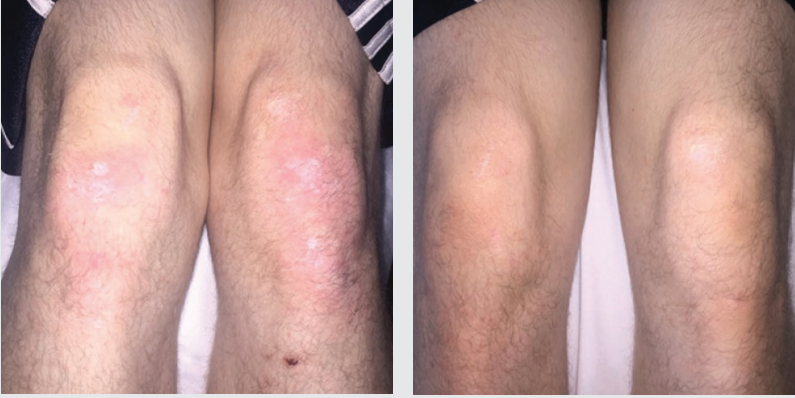

AFTER

After first treatment

“I loved how my skin looked and felt after the first treatment with NeoGenesis stem cell skincare products along with microcurrent. The redness diminished greatly and it felt softer and smoother. I'm excited to have a home care protocol that will continue to heal my skin.” - JW

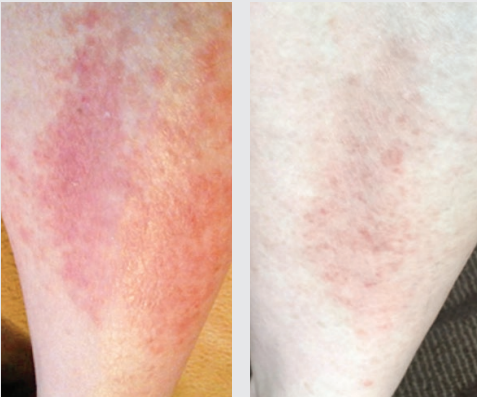

support the skin barrier

ECZEMA

14 DAYS

“ I have had Eczema on my knees for 5 years. I have tried topical steroid creams from the doctors, but it always comes back shortly after I stop using the cream. I started using NeoGenesis Recovery Serum twice a day and within 2 weeks it was completely cleared up. I was amazed at how fast it happened. Now I apply Recovery twice a week and I am going on 10 months of my knees being completely clear. I love this stuff!” - DC

60 DAYS

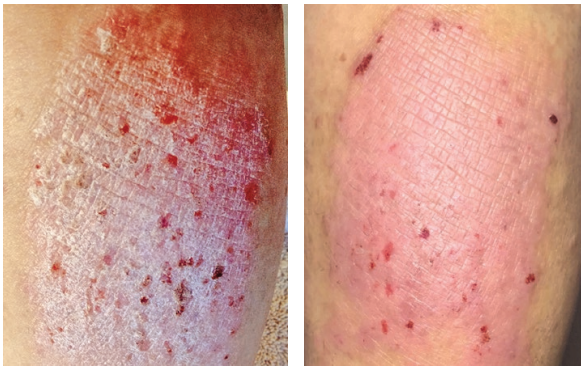

“ I have suffered from Eczema for over 20 years. I tried every product out there with no change or effect. After using the NeoGenesis Recovery Serum for only 2 months the Eczema has disappeared. No more redness or itching. I cannot say enough about this wonderful serum! It has literally changed my quality of life!” - BK

DERMATITIS

BEFORE AFTER

“I have had a rash on the back of my legs for a couple of years. It would itch and I had all these bumps running down my leg... I was told it was some type of dermatitis, most likely caused by stress and diet... My mom bought me a product called Recovery by NeoGenesis. I put it on twice a day and the rash was gone in a week. Recovery is such a cool product!” - *DC*

30 DAYS

“I have had this rash for over 5 years. We tried almost everything, but no improvement. I started using NeoGenesis products about six weeks ago, and WOW! The itching has gone down...the area was also very tender and it's less sensitive today. It's gone from a scaly, thick patch to actually feeling like “real skin” again.” - *ML*

Treating the skin topically with NeoGenesis S²RM® patented stem cell released molecule technology will reduce the chances of chronic conditions reappearing in the affected areas.

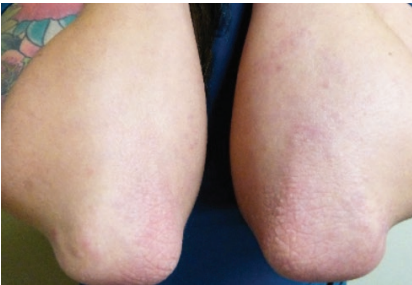

PSORIASIS

DAY 1

DAY 14

DAY 21

DAY 42

“**Day 1** - Patient has had Psoriasis for approximately a year now. It started on a very small surface and spread out on her elbows, knees, ankles, scalp, and also random patches on her legs. It is constant, never goes away, and in the past year it has gotten worse. The lesions itch and hurt significantly and continuously. On a scale from 1-10, 10 being the worst, a solid 7 at the time of the pictures.

Day 42 - As you can tell in the pictures there is significant improvement in the aspect of the lesions. She has no pain, some itchiness but subsides quickly. The scaling is significantly less and the size of the affected area decreased considerably.” - *Courtesy of Valentin Isacescu, MD*

HYPERKERATOSIS

BEFORE

9 days using Recovery

AFTER

2 months using Recovery

“I started treatment with Recovery twice a day. It had already taken away the redness and the size began diminishing. But two months later it's completely flat and the tiny dot left will no doubt be gone within the next few weeks.” - *Annaliza, The Skin Curator*

what other's are saying...

“I have used a number of the products and have good results even though I have ultra sensitive skin, some dry areas, as well as an oily T zone. The sensitivity of my skin trumps all the other issues. I struggle finding products that I can use with my skin, but I have had not issues with any of the NeoGenesis products. People have been commenting on how good my skin looks so the results are noticeable.” - *PC*

“

“The NeoGenesis Recovery serum is the most amazing product I have ever used. I am on day 4 and every morning I wake to noticeably diminished acne scars. I have 20 + year old ice pick acne scars practically healing before my eyes. It is incredible, exciting and just shy of miraculous.” - *ALA*

Recovery, abundant in S²RM[®] molecules, is the go-to product to use for chronic and traumatic skin conditions. It immediately begins to naturally heal and calm the skin where these conditions exist. If additional hydration is needed, follow Recovery with the NeoGenesis Intensive Moisturizer or Barrier Renewal Cream, and apply as often as needed to further calm and hydrate the skin. Recovery is safe for use on all areas of the body, including around the eyes.

For ongoing comfort and to reduce the chances of the condition reappearing in the affected area, the patient may transition over to the use of the NeoGenesis Skin Serum once or twice daily, followed by the application of the Intensive Moisturizer. The S²RM[®] technology found in these products will continue to naturally feed nutrients into the skin, creating a healthier and stronger skin barrier.
