## STRENGTHEN + SOOTHE COMPROMISED SKIN

Delivering nutrient-rich molecules to compromised skin, NeoGenesis stem cell released molecule technology (S<sup>2</sup>RM®) mimics the body's natural repair process, utilizing stem cell molecules for enhanced rejuvenation.

When applied to damaged skin, NeoGenesis products return nutrients to the skin that were available when the skin was young and healthy.

NeoGenesis can aid in strengthening and nourishing the skin and reducing or eliminating irritation and general discomfort of chronic conditions.

# restore balance

Many with oily skin incorrectly believe that their skin is dirty and wash too often with harsh cleansers and exfoliants, damaging the skin. NeoGenesis Recovery, abundant in S<sup>2</sup>RM® technology, is perfect to naturally restore balance within the skin, and reduce irritation and redness.

## BLEMISHES

9 WEEKS

“We have dramatically changed the skin in a matter of 9 weeks. You will start to see how the blackheads, whiteheads, and underlying congestion of the skin have dramatically improved, if not disappeared. This is 9 weeks of using NeoGenesis on the skin topically. We have not treated the skin with any treatments. This is something we have never experienced in all of our skin education before.”  
- Donna Glazer, *Face It Skin Clinic*

DAY 1

DAY 21

DAY 57

“My skin felt red and irritated a lot, with pimples most of the month. The MB-1 is very easy to use and feels good on my skin. It soothed my redness right away and I saw my breakouts begin to diminish the first week. I got fewer new breakouts too and when I did, they were much smaller, without the redness and irritation I normally get.” - K.S.

## REDUCE REDNESS + IRRITATION

DAY 0

3 WEEKS

7 MONTHS

“This client has had issues with cystic acne. He also works at a wood pulp mill and is often around the chemicals in the air. Once he started on a regular skin care regimen using NeoGenesis products, his skin started to improve almost immediately. The redness started to subside, the flaky skin started to improve and the itchiness is now gone.” - Becky Stratton, *The Skin Studio*

Calm and soothe sensitive skin and maintain a healthy-looking complexion with NeoGenesis products that naturally deliver the nutrients needed for skin to become balanced and respond normally.

## ROSACEA

BEFORE

AFTER

*After first treatment*

“I loved how my skin looked and felt after the first treatment with NeoGenesis stem cell skincare products along with microcurrent. The redness diminished greatly and it felt softer and smoother. I'm excited to have a home care protocol that will continue to improve my skin.” - J.W.

# skin barrier support

## ECZEMA

14 DAYS

“I have had Eczema on my knees for 5 years. I have tried topical steroid creams from the doctors, but it always comes back shortly after I stop using the cream. I started using NeoGenesis Recovery Serum twice a day and within 2 weeks it was completely cleared up. I was amazed at how fast it happened. Now I apply Recovery twice a week and I am going on 10 months of my knees being completely clear. I love this stuff!” - D.C.

60 DAYS

“I have suffered from Eczema for over 20 years. After using the NeoGenesis Recovery serum for only 2 months the Eczema has disappeared. No more redness or itching. I cannot say enough about this wonderful serum! It has literally changed my quality of life!” - B.K.

## DERMATITIS

7 DAYS

“I have had a rash on the back of my legs for a couple of years. It would itch and I had all these bumps running down my leg... I was told it was some type of dermatitis, most likely caused by stress and diet... My mom bought me a product called Recovery by NeoGenesis. I put it on twice a day and the rash was gone in a week. Recovery is such a cool product!” - D.C.

30 DAYS

“I have had this rash for over 5 years. We tried almost everything, but no improvement. I started using NeoGenesis products about six weeks ago, and WOW! The itching has gone down...the area was also very tender and it's less sensitive today. It's gone from a scaly, thick patch to actually feeling like “real skin” again.” - M.L.

Using NeoGenesis S<sup>2</sup>RM® technology topically may reduce the chances of chronic conditions reappearing in the affected areas.

## PSORIASIS

*Photos Courtesy of Professional Partner Valentin Isacescu, MD*

DAY 1

DAY 14

DAY 21

DAY 42

**DAY 1** - Patient has had Psoriasis for approximately a year now. It started on a very small surface and spread out on her elbows, knees, ankles, scalp, and also random patches on her legs. It is constant, never goes away, and in the past year it has gotten worse. The lesions itch and hurt significantly and continuously. On a scale from 1-10, 10 being the worst, a solid 7 at the time of the pictures.

**DAY 42** - As you can tell in the pictures there is significant improvement in the aspect of the lesions. She has no pain, some itchiness but subsides quickly. The scaling is significantly less and the size of the affected area decreased considerably.

# HYPERKERATOSIS

*Photos Courtesy of Professional Partner Annaliza, The Skin Curator*

— BEFORE — AFTER —  
*9 days using Recovery*      *2 months using Recovery*

“I started using Recovery twice a day. It had already taken away the redness and the size began diminishing. But two months later it’s completely flat and the tiny dot left will no doubt be gone within the next few weeks.” - A.S.

## *what other's are saying...*

“Since I was four years old I have had psoriasis everywhere - on my legs, face, back and feet. As a result of this, I’ve always been self conscious as it has affected the way I feel about myself. I used NeoGenesis Recovery one night on my feet just to try it out and was blown away at the results. The very next day the psoriasis on my feet was nearly gone already. Thank you NeoGenesis.” ~ J.S.

“I use the Body Cream after Recovery when I have Eczema flare-ups and the results are unbelievable. Not only does it clear up within 2 days, but my Eczema rarely comes back now. So not only does it help with the immediate flare-up, but my skin is now healthier. Thanks so much. So grateful to have found these products.” ~ J.F.

# recovery

Recovery, abundant in S<sup>2</sup>RM<sup>®</sup> molecules, is the go-to product to use for chronic and traumatic skin conditions. It immediately begins to naturally support and calm the skin where these conditions exist. If additional hydration is needed, follow Recovery with the NeoGenesis Intensive Moisturizer or Barrier Renewal Cream, and apply as often as needed to further calm and hydrate the skin. Recovery may be used on all areas of the body, including around the eyes.

## SOOTHE + NOURISH

For ongoing comfort and to reduce the chances of the condition reappearing in the affected area, transition over to the use of NeoGenesis Skin Serum once or twice daily, followed by our Intensive Moisturizer. The S<sup>2</sup>RM<sup>®</sup> technology found in these products will continue to naturally feed nutrients into the skin, for a healthier and stronger skin barrier.
