

Partner Clinic

Dear Clinician,

At NeoGenesis, we are always looking for ways to better support our professional clinics. We are fully dedicated to your success through education, co-branding, event support, business building strategies and now, our new Partner Clinic program. This program is designed to help you grow your business and boost sales by making access to home protocol products a simple process for your clients.

The Partner Clinic program is our latest initiative to further support your professional practice. Once you register for the program, you will be given a unique URL that links to your personalized landing page on our website. This way, your clients know, for sure, that they are supporting you directly. You will receive a 20% commission by the 10th of the following month, for all purchases that are made using your link. Your customers will be linked to your account for all future orders, unless they use another clinician's Partner Clinic URL to visit the site.

In this program, we provide you with marketing materials you can use on your website, social media, or email campaigns to drive traffic to your landing page on our website. There are a lot of exciting details in the summary below.

NeoGenesis's Partner Clinic program is a simple and effective way of creating business growth and increasing your revenue. It is an excellent opportunity for you to expand your reach, build a loyal customer base, and make a substantial impact in your profession.

We hope you will take full advantage of this new program and look forward to helping you succeed. If you have any questions about the program, or just need some help getting started, please feel free to reach out.

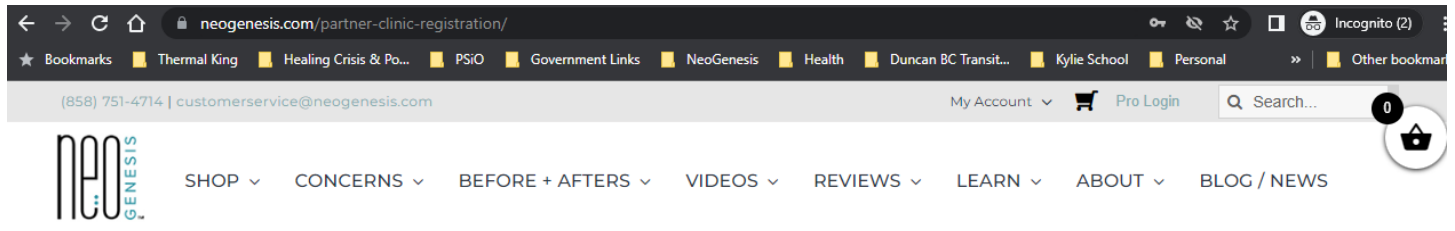

Sincerely,

Kelsey O'Connor
